

Regarding H.B. No. 5262 and S.B. No. 184 :: Citizens who cannot find a way to vote under existing rules, should not be able to steer the direction of this state. Nobody has ever been denied the ability to vote, and voting absentee has always been an option for those who cannot make it to their polling place. The risks of an unvetted mass ballot program to misuse have not fully been investigated, as we can see by the hurried close to the 2020 elections where a flood of lawsuits filed under duress to address grievances with the untested system were nearly all summarily thrown out to maintain deadlines in absolute disgust to the phrase free and fair elections. I do not agree with either of these proposals to modify the state voting process.

Thank you.
